| Frequency Range | 700-800 / 824-894 MHz 880-960 / 1850-1990 MHz |
| Gain | 5 dBi |
| Connector | FME-Female |
| Radiation Pattern | Omni-Directional |
| Style | Magnet-Mount |

Application:

4G

Verizon LTE

Cellular/PCS

AWS

Nextel/iDEN

Description

This is an excellent performing, very well made antenna for use with mobile amplifiers. It is highly recommended by Top Signal. The magnet mount antenna does require a metal ground plane and is designed to be placed on the roof of a vehicle or other metal surface.

Powerful Signal has tested this antenna with an RF meter against many other low profile and 12" antennas. It is always one of the top performers.
