Installation

- 1 Receives signal:** The powerful outside antenna reaches out to access a voice and 3G, 4G, and LTE data signal, and delivers it to the booster.
- 2 Boost signal:** The booster receives the signal, amplifies it, and serves as a relay between your phone and the nearest cell tower.
- 3 Broadcasts signal:** Your devices get a stronger signal, and calls and data are fed through the booster back to the network.

Support

 2 Year Warranty from Purchase.
