ABOUT

The **weBoost RV35** is a powerful, set-it-and-forget-it signal booster for RVs from 20 to 40 feet. Designed for use when parked, it pairs a home-booster-grade amplifier with a permanently mounted omnidirectional roofline antenna—so you get strong, reliable signal the moment you park, without aiming, adjusting, or lifting a pole.

The weBoost RV35 is ideal for RV owners who require consistent cellular connectivity at the campsite. Whether you're traveling to remote areas, camping in national parks, or staying in RV parks with weak signals, this booster ensures you stay connected. It supports multiple devices, enhances data speeds, and reduces dropped calls, making it perfect for work, entertainment, and emergency communication needs. The simple installation ensures it fits seamlessly into any RV setup, providing reliable performance wherever your adventures take you.

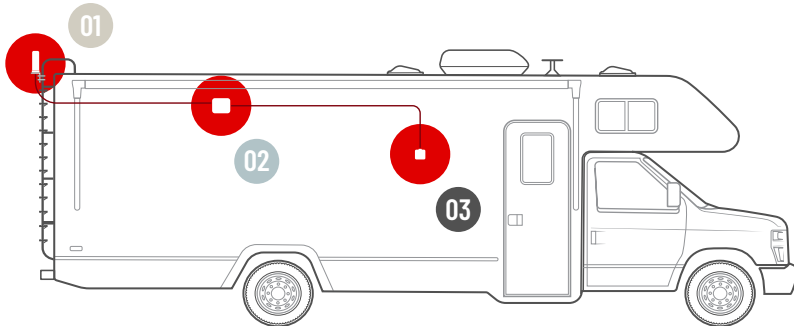

Like all weBoost boosters, the RV35 is FCC-approved and comes with a 2-year warranty.
