

# We're Raising the Bar on Cell Signal Coverage

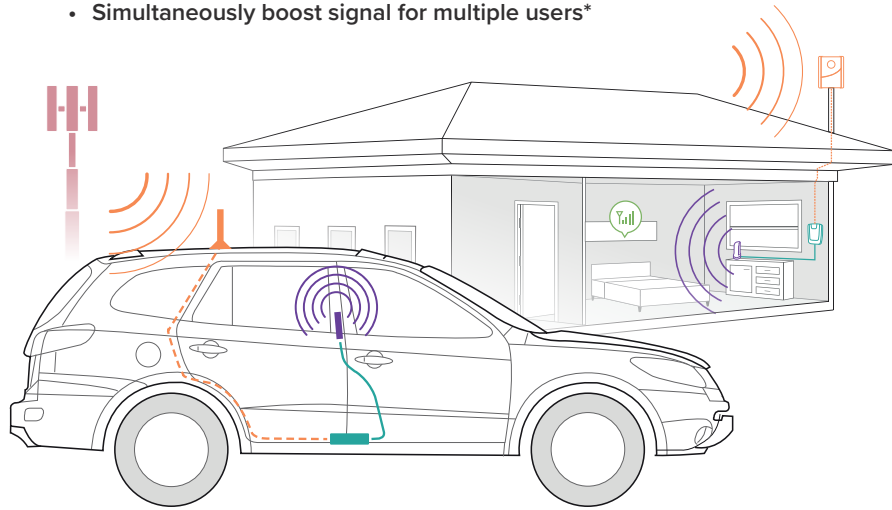

ABOUT WEBOOST | CELL SIGNAL BOOSTERS FOR HOME, OFFICE, OR ON THE GO

weBoost is the leading manufacturer of consumer cell signal boosters. From your home to your workplace or even in your car, our boosters are designed to provide you with the most powerful cell signal possible—as allowed and approved by the FCC.

Put an end to dropped calls, missed texts, spotty internet connections, and slow data speeds. Get the enhanced cell reception you need—from wherever you are, whenever you need it.

weBoost cell signal boosters share these great features:

- Boosts signal for all available networks speeds: data, voice, text
- Support all cell devices, all major U.S. carriers
- Patented automatic gain control technology
- Simultaneously boost signal for multiple users\*

## How weBoost cell signal boosters work

Everyone has experienced bad cell reception at one time or another. Here's a quick look at how our boosters enhance existing cell signal—whether you're on the road or in your neighborhood.

- EXTERNAL ANTENNA**  
Outside cell signal is received from the tower and transmitted to the booster.
- CELL SIGNAL BOOSTER**  
Outside cell signal is amplified by the booster and sent to the internal antenna.
- INTERNAL ANTENNA**  
Internal antenna broadcasts the amplified cell signal for use by cellular devices.
