

## PROWAY - WilsonPro Cellular Signal Solutions

### Application:

Amplifies Weak Signal for All Carriers:

Verizon

AT&T

Sprint

T-Mobile

Alltel

US Cellular

And More...

### Specifications:

Frequency Range	698-746 MHz
	746-787 MHz
	824-894 MHz
	1850-1995 MHz
	1710-1755/2110-2155 MHz
Max Gain	70dB
Power Requirements	110-240 V AC, 50-60 Hz, 20 W
Connectors	50 Ohm N-Female
Dimensions	65dB (±2dB)
Noise Figure @ Gain Max	<8dB
Power Consumption	5.3V / 1.4A
RF Connector	N-Female
Noise Figure	5 dB Nominal
Isolation	>90 dB

### Description

Powerful Signal specializes in Passive Cellular DAS systems designed with WilsonPro® commercial grade amplifiers. Along with each professionally designed and installed system, we provide our Lifetime Support.
